

School Review Story 2018-19

Year of Plan				X
	1	2	3	other

School Name: Ecole Hammond Bay
Principal: Christine Bohm
Date: June 2019

Response to Intervention (RTI) is a district-wide approach to teaching and learning that combines high quality instruction with a tiered system of interventions for students who need additional help in their learning. The prime motive for Nanaimo Ladysmith Public Schools focussing its attention on RTI at this time is its promise to provide an extraordinary education for all students regardless of which school they attend in the district

Tell us about your school improvement team (i.e. Who was on it? How many students? Teachers? Parents? Other partners?)

Ecole Hammond Bay's school improvement team consisted of all professional staff at our schools. Teachers and Educational Assistants, worked in collaboration with Student Support Teachers, Teacher-Librarian, Counselor, Child Youth and Family Care Worker and Administration. Administration provided an update to Ecole Hammond Bay PAC at each monthly meeting.

Share your school improvement story. Tell us what happened and how it went.

Ecole Hammond Bay staff engaged in Learning Sprints this year. Using the ALPIN, NLPS and FSA data, teachers analyzed the trends and/or areas of concern. Inquiry questions were generated based on the data. Teachers and staff engaged in the Spirals of Inquiry model in targeted and sustained intervention cycles (Learning Sprints). At the end of each Sprint cycle, staff reflected on the data collected and targeted further intervention. Improvement in student achievement were noted in all grade levels.

Reflections (What worked well? What would you do differently next year? Where are you going next in your learning?)

What worked well?

The introduction of targeted 6 week intervention spiral of inquiries, grounded in data, worked well at Ecole Hammond Bay.

What would you do differently next year?

Next year, we will include the DMA data results in our analysis portfolio. We will also plan our Learning Sprint intervention model calendar to optimize our learning.

Where are you going next in your learning?

Next year, as the District shifts its focus to Numeracy, Ecole Hammond Bay will do the same. We will focus our PLC on supporting and improving student achievement in numeracy comprehension and skills.
